| Thinkproject PDF Watermark Service | 500 MB | 1.250 | ✓ | DIN A0 - A4 |
| OCR | 50 MB | 100 | ✓ | Only DIN A4 |

* For all browsers we always recommend using the newest version.

** For all Apps we always recommend using the newest version.

Additional Information

- Windows 7 as well as Internet Explorer are not supported anymore.
- The Safari Web Browser ist not supported.
- Microsoft has ended support for Office 2003 and Windows XP on April 8, 2014. It is strongly recommended to keep your version of Office and operating system up to date.
- TP CDE Connect for Desktop Applications needs full write access to the "Temp"-Directory (e.g. could be restricted by Active Directory or Citrix environment).
- The TP CDE Module BIM 3D Review Board uses the 2011 WebGL standard for rendering 3D models. WebGL 2.0 is supported by Google Chrome and Mozilla Firefox natively. Microsoft Internet Explorer 11 and Microsoft Edge only provides partial WebGL 1.0 support (experimental). In individual cases, however, support may be restricted by the hardware.
- For the Webservice-API (aka SOAP-API), only SOAP 1.1 is supported. Further details in the manual „Web Service Interface“, available on request.
- For the TP CDE REST interface, clients must be able to send standard HTTP request types with headers and (optional) JSON payload. REST responses are represented as JSON structures or binary data, depending on the representation type.

Microsoft has a support lifetime for each of their products. Below is a list of software that has reached its end of support. For security reasons, TP CDE will not support products that are not supported by the originator anymore.

| Browsers | End of service |
|------------------------------------|-------------------|
| Microsoft Internet Explorer 11 | August 17, 2021 |
| Microsoft Edge (legacy version) | March 9, 2021 |
| Operating Systems | End of Service |
| Windows 10 Enterprise Version 1709 | October 13, 2020 |
| Windows 10 Enterprise Version 1903 | December 8, 2020 |
| Windows 10 Enterprise Version 1803 | May 11, 2021 |
| Windows 10 Enterprise Version 1809 | May 11, 2021 |
| Windows 10 Enterprise Version 2004 | December 14, 2021 |
| Windows 7 | January 14, 2020 |
